

## MAINSTREAMING POVERTY-ENVIRONMENT LINKAGES INTO DEVELOPMENT PLANNING: A Handbook for Practitioners

The Poverty-Environment Initiative (PEI) of the United Nations Development Programme (UNDP) and the United Nations Environment Programme (UNEP) is a global UN-led programme that supports country-led efforts to mainstream poverty-environment linkages into national development planning. The PEI provides financial and technical assistance to government partners to set up institutional and capacity strengthening programmes and carry out activities to address the particular poverty-environment context.
